MOHAMMED ADEL

MOBILE SOFTWARE ENGINEER | FLUTTER DEVELOPER

Cairo, Egypt | +20 106 490 2663 | m.adeldev10@gmail.com
github.com/medooadel10 | linkedin.com/in/mohammedadel10

PROFESSIONAL SUMMARY

Mobile Software Engineer with 3+ years of Flutter and Android experience contributing to 15+ Android/iOS apps across enterprise, logistics and gaming. Improved mobile app performance by 60%, migrated production apps to Flutter 3.x, and shipped games reaching 100K+ downloads.

TECHNICAL SKILLS

Mobile & Architecture: Flutter, Dart, Android Native, BLoC/Cubit, Riverpod, Provider, Clean Architecture, MVVM, SOLID, dependency injection.

Networking & Data: REST APIs, Dio, Retrofit, OAuth, Firebase (FCM, Firestore, Analytics), SQLite, Hive, offline-first, real-time synchronization.

Delivery & Quality: Git, CI/CD, unit and widget testing, debugging, performance optimization, Google Play Console, App Store Connect, payments/IAP, Unity LevelPlay, RTL localization.

PROFESSIONAL EXPERIENCE

Mobile Software Engineer (Full-time) | Solvytix — Jan 2025 – Present

- Developed and released 11 Flutter apps across enterprise LMS/HR, AI governance, school canteens, maintenance and study-abroad products.
- Led ElKanteen's 3 Flutter apps (Parent, Student, Cashier POS), delivering QR checkout, wallet payments, pre-orders, item-level refunds and push notifications.
- Built CEB and Cognitech LMS/HR workflows for QR attendance, quizzes, certificates, payroll, leave and role-based approvals.
- Implemented Gatelion AI action approvals using biometrics, on-device signing, FCM notifications, QR pairing and audit trails.

Mobile Software Engineer (Part-time) | Weevo — Jul 2024 – Present

- Improved Merchant/Captain app performance by 60%, resolved reported production crashes and migrated 2 apps from Flutter 2.10 to 3.x.
- Delivered real-time order sync, authentication and payments across 3 delivery apps; added automated testing and CI/CD releases.

Flutter Developer (Part-time) | Geeks Tech — Mar 2026 – Present

- Shipped Barra Al-Salfeh (100K+ downloads) and Guess It (10K+) with offline-first gameplay, Arabic RTL UI, Unity LevelPlay ads and IAP.
- Contributed a shared Flutter game kit for Firebase, ads, in-app purchases and review prompts across studio games including Sawaleef and Clash Kalimat.

Flutter Instructor | Information Technology Institute (ITI) — Jul 2025 – Nov 2025

- Taught Dart/Flutter, REST APIs, Firebase and Clean Architecture; mentored trainees through code reviews and hands-on projects.

Android & Flutter Developer | Mahatech Academy — Jan 2021 – Jan 2023

- Built and published Android Native and Flutter apps with REST API integration, local storage, testing and store releases.

SELECTED PROJECTS

ElKanteen – School Canteen Platform: Three Flutter apps (Parent, Student, Cashier POS) with QR checkout, wallet payments, pre-orders and refunds.

CEB Platform – LMS & HR: Courses, training sessions, QR attendance, quizzes and certificates; leave and approval workflows.

Cognitech – LMS & Enterprise: Multi-tenant apps for video learning, live sessions, attendance, payroll and role-based access.

Gatelion – AI Agent Approval: Biometric approvals, on-device signing, QR pairing, push alerts and auditable actions.

Weevo Merchant & Captain: Delivery apps with real-time order sync, prepaid shipments, payments and release automation.

Barra Al-Salfeh & Guess It: Arabic party games with 100K+ and 10K+ downloads, offline-first gameplay, ads and IAP.

EDUCATION

Bachelor of Science (B.Sc.) in Statistics & Computer Science | Helwan University | May 2023

ITI Intensive Training Diploma | Frontend & Cross-Platform Mobile Development | Nov 2023 – Mar 2024
